Forward Looking Statements

Certain statements in this document constitute "forward-looking information" or "forward-looking statements" (collectively, "forward-looking statements"). Any such forward-looking statements are intended to provide information about management's current expectations and plans and may not be appropriate for other purposes. Forward-looking statements may include financial and other projections, as well as statements regarding our future plans, strategic objectives or economic performance, or the assumptions underlying any of the foregoing, and other statements that are not recitations of historical fact. We use words such as "may", "would", "could", "should", "will", "likely", "expect", "anticipate", "believe", "intend", "plan", "aim", "forecast", "outlook", "project", "estimate", "target" and similar expressions suggesting future outcomes or events to identify forward-looking statements. Forward-looking statements in this document include, but are not limited to, statements relating to: the expected impact of our cost structure reductions and discretionary spending adjustments on our financial results; the benefits of our Honglitzhixin acquisition and our cooperation with Fisker; implementation of our financial strategy, including future returns of capital to our shareholders through dividends and share repurchases; our ability to capitalize on industry trends related to vehicle lightweighting, powertrain electrification, active aerodynamics, autonomous driving systems, and smart mobility solutions; actions to optimize our joint venture transmission business, the timing and success of upcoming product and/or program launches; expected Adjusted Debt/Adjusted EBITDA range, free cash flow expectations; 2020 outlook and Q4 2020 implied outlook, including forecasts of light vehicle production in North America, Europe and globally; expected Total sales, based on such light vehicle production, including split by reporting segment; Adjusted EBIT margin; Equity Income; Net interest expense; Tax rate; Net Income; and Capital spending.

Forward-looking statements are based on information currently available to us and are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. While we believe we have a reasonable basis for making any such forward-looking statements, they are not a guarantee of future performance or outcomes. Whether actual results and developments conform to our expectations and predictions is subject to a number of risks, assumptions and uncertainties, many of which are beyond our control, and the effects of which can be difficult to predict, including, without limitation:

Risks Related to the Automotive Industry

- economic cyclicality;
- regional production volume declines, including as a result of the COVID-19 (Coronavirus) pandemic;
- intense competition;
- potential restrictions on free trade;
- trade disputes/tariffs;

Customer and Supplier Related Risks

- concentration of sales with six customers;
- OEM consolidation and cooperation;
- shifts in market shares among vehicles or vehicle segments;
- shifts in consumer "take rates" for products we sell;
- quarterly sales fluctuations;
- potential loss of any material purchase orders;
- a deterioration in the financial condition of our supply base, including as a result of the COVID-19 (Coronavirus) pandemic;
- increased financial pressure, including as a result of COVID-19 caused OEM bankruptcies;

Manufacturing/Operational Risks

- product and new facility launch risks;
- operational underperformance;
- restructuring costs;
- impairment charges;
- labour disruptions;

Manufacturing/Operational Risks (cont'd)

- labour shortage in our facilities, or those of our customers and suppliers, as a result of the COVID-19 (Coronavirus) pandemic
- COVID-19 (Coronavirus) shutdowns;
- supply disruptions and applicable costs related to supply disruption mitigation initiatives, including as a result of the COVID-19 (Coronavirus) pandemic;
- climate change risks;
- attraction/retention of skilled labour;

IT Security/Cybersecurity Risks

- IT/Cybersecurity breach;
- Product Cybersecurity breach;

Pricing Risks

- pricing risks between time of quote and start of production;
- price concessions, including as a result of the COVID-19 (Coronavirus) pandemic;
- commodity costs;
- declines in scrap steel prices;

Warranty/Recall Risks

- costs related to repair or replacement of defective products, including due to a recall;
- warranty or recall costs that exceed warranty provision or insurance coverage limits;
- product liability claims;

Acquisition Risks

- inherent merger and acquisition risks;
- acquisition integration risk;

Other Business Risks

- risks related to conducting business through joint ventures;
- our ability to consistently develop and commercialize innovative products or processes;
- our changing business risk profile as a result of increased investment in electrification and autonomous driving, including: higher R&D and engineering costs, and challenges in quoting for profitable returns on products for which we may not have significant quoting experience;
- risks of conducting business in foreign markets;
- fluctuations in relative currency values;
- tax risks;
- reduced financial flexibility as a result of an economic shock;
- changes in credit ratings assigned to us;

Legal, Regulatory and Other Risks

- antitrust risk;
- legal claims and/or regulatory actions against us; and
- changes in laws and regulations, including those related to vehicle emissions or made as a result of the COVID-19 (Coronavirus) pandemic.

In evaluating forward-looking statements or forward-looking information, we caution readers not to place undue reliance on any forward-looking statement, and readers should specifically consider the various factors which could cause actual events or results to differ materially from those indicated by such forward-looking statements, including the risks, assumptions and uncertainties above which are discussed in greater detail in this document under the section titled "Industry Trends and Risks" and set out in our Annual Information Form filed with securities commissions in Canada and our annual report on Form 40-F filed with the United States Securities and Exchange Commission, and subsequent filings.

12

Launching Arcfox α-T Electric Vehicle

- First vehicle produced with the Arcfox brand by the Magna-BJEV joint venture
- For Magna, first vehicle assembled outside of Europe
- Volumes expected to grow over the next couple of years as production ramps up and more Arcfox-branded vehicles launch

13

Cooperation with Fisker

- Agreements signed with Fisker to provide the framework for platform sharing and manufacturing cooperation
- Production of the Fisker Ocean electric SUV planned for Q4-2022
- Example of our strategy to leverage strong portfolio for future mobility needs
- Utilizes our full vehicle engineering and manufacturing capabilities
- Fisker issued Magna warrants to purchase shares representing ~6% of equity

14

Business Award for Camera Monitoring System

- Awarded business for new camera monitoring system across multiple vehicle models for a global automaker
- ClearView™ technology will enter the market in 2022
- Unique combination of camera, exterior and interior mirror, electronic and software capabilities
- Creates a complete vision system
- Enhances driver safety
- Great example of our ability to combine capabilities to provide optimized solutions

Getrag Update

Joint Ventures

- Past few years we have highlighted challenges
- Business planning activity has led to lower volume and free cash flow projections for Getrag Jiangling Transmission (GJT) joint-venture
 - Result: recorded \$200 million impairment charge after taxes and minority interest

38

Wholly Owned Operations

- Business, predominantly DCT technology, continues to perform well
- Package-neutral hybrid DCT (“HDT”) – important element of our powertrain electrification strategy
 - BMW program award – both DCTs and HDTs
 - HDT program award with additional global OEM
 - Begin to launch HDTs in 2021
- Continued strong interest in DCT/HDT technologies from other OEMs
